

Family Quilts

Step-by-Step Instructions for our February Family Friendly Activity

For this activity, you will need:

- Cardstock
- Scrapbook Paper
- Ruler
- Scissors
- Glue Stick
- Markers/Pencil
- Crayons
- Pencil

Quilts not only keep you warm but can help with telling a story. Tell the story of your own family with a mixed media quilt collage.

1.

Cut pieces of scrapbook paper into different shapes – be sure you have some rectangles for the trunk of your tree and the branches and triangles for leaves.

2.

With the help of an adult, use markers or pencil crayons to write the names of different members of your family on some of your leaves.

3.

Glue your different shapes onto your piece of cardstock. Remember with family trees, the older generations are the trunk of your tree and the younger generations the leaves.
